To His Honour

W. L. WALSH,
Lieutenant Governor of Alberta.

MAY IT PLEASE YOUR HONOUR:

The undersigned has the honour to transmit herewith the Public Accounts of the Province of Alberta for the year ended March 31, 1933.

Respectfully submitted,

R. G. REID,
Provincial Treasurer.

Treasury Department,

Edmonton, September 27, 1933.

THE HONOURABLE R. G. REID,
Provincial Treasurer of Alberta.

SIR:

I have the honour to submit the Public Accounts for the year ended March 31, 1933.

The accounts are arranged to show:

- (a) The financial position of the Province as a whole, including all its activities, as at March 31, 1933.
- (b) Revenue and expenditure for the fiscal year 1932-33.
- (c) Bonded Debt and Sinking Funds as at March 31, 1933.
- (d) Cumulative result of operations to March 31, 1933.
- (e) Operations of the various departments for the fiscal year 1932-33.
- (f) The financial position of utilities or services under Boards, Commissions, or other statutory authority.
- (g) Details of payments from the General Revenue Fund.

In accordance with the usual practice, the following analysis has been prepared for the purpose of summarizing the information contained in the accounts.

Result of Operations:

Financial results for the fiscal year ended March 31, 1933, were as follows:

1. Deficit, General Revenue Fund	\$2,107,521.03
2. Deficit, Alberta Government Telephones, without provision for depreciation	277,006.98
Total Deficit	<u>\$2,384,528.01</u>

On General Revenue Fund account operations for the fiscal year resulted in a deficit of \$2,107,521.03, as compared with a deficit of \$5,153,050.92 in the previous fiscal period.

The financial position of Alberta Government Telephones is dealt with in the certificate to the balance sheet of that utility (see Statement No. 106).

GENERAL REVENUE FUND.

Actual results as compared with estimates at the beginning of the period were as follows:

	Actual.	Estimates.	Less than Estimates.
Revenue	\$15,426,264.94	\$18,207,227.43	\$ 2,780,962.49
Expenditure	17,533,785.97	18,058,027.43	524,241.46
Deficit	\$ 2,107,521.03	\$ 149,200.00	\$ 2,256,721.03
		(estimated surplus)	

Savings made by the various departments in their appropriations amounted to \$841,234.35, and to the extent of \$316,992.89 this was offset by special warrants, leaving a net under-expenditure, as shown above, of \$524,241.46. These warrants are summarized hereunder:

Agricultural relief:

Movement of settlers, free freight on seed and feed, and free freight on stocker and feeder cattle	\$ 58,934.18
Turner Valley Gas Conservation Board	48,000.00
Alberta Provincial Police, liquidation expenses and payments to R.C.M.P. Pension Fund	20,311.92
Grants to cities in lieu of service tax	123,000.00
Grants to various organizations	25,597.50
Miscellaneous activities	41,149.29
	<u>\$316,992.89</u>

The deficit for the year may be wholly attributed to shrinkage in provincial revenue. Actual revenue was \$2,780,962.49 short of the estimates, while on the expenditure side there was a net saving of \$524,241.46.

BALANCE SHEET.

In order to bring down the net general debt of the Province at the close of the fiscal period, the form of the consolidated balance sheet, Statement No. 1, has been arranged to show a classification of the various assets and liabilities. Working advances, previously consolidated with income assets and liabilities, are now brought out in the capital section of the balance sheet. Capital surplus and sinking fund reserves have been deducted in total from deferred charges and capital losses. Reserves arising from contributions of the Dominion of Canada and other authorities to unemployment relief work programmes have been deducted from assets created by the expenditures. Indirect liabilities are shown at a net amount after deducting sinking funds provided for the retirement of the several guaranties.

Public Debt:

Examination of the balance sheet shows that net funded and unfunded debt at March 31, 1933, amounted to \$143,726,082.55 as follows:

Funded debt	\$140,560,312.24	
Less: Sinking funds	7,399,532.89

Net funded and unfunded debt		<u>\$143,726,082.55</u>

In order to arrive at the net general debt the following realizable or income-producing assets may properly be deducted:

Subsidies:

Under the terms of The Alberta Act the Province receives certain annual subsidies from the Dominion of Canada. For the purpose of information only the capital sums which at 5% would yield the 1932-33 revenue are shown hereunder:

Government and Legislation	\$ 3,800,000.00

No attempt has been made to value these assets in the balance sheet, with the exception of including in the accounts receivable at a conservative valuation, amounts due under leases or agreements.

Income Assets and Liabilities:

Reference to the income section of the balance sheet shows current assets consisting of cash; uncollected revenue on income account, less provision for estimated losses; equipment, stores and materials purchased on income appropriations, less provision for depreciation; and prepaid expenses, amounting in all to	\$ 6,664,703.27

General.

During the course of the year a continuous pre-audit was maintained of expenditures from the General Revenue Fund. Revenues of all departments and the books and accounts of all boards or commissions were audited under my direction. Bank balances

were verified against bank certificates. Securities aggregating \$28,538,992.70 were examined and found in order. Every assistance was extended by officials of the several departments, boards and commissions, to facilitate the work of my representatives, and all information requested was promptly given.

I have the honour to be, Sir,

Your obedient servant,

The above balance sheet does not include a valuation of Dominion of Canada subsidies. These subsidies, capitalized on a 5% basis to yield the 1932-33 revenue from that source, would represent a valuation of \$34,863,180.00.

Subject to the foregoing remarks, and subject to any provisions which may be necessary for depreciation of public works and undertakings, or for losses arising from non-collection of capital advances and accounts receivable, the above balance sheet, in my opinion, is properly drawn up so as to show the true financial position of the Province at March 31, 1933.

Edmonton, Alberta, May 29, 1933.

I have audited the books and records of the Provincial Sinking Fund for the year ended March 31, 1933, and the above balance sheet is correctly prepared therefrom. All contributions have been made during the period in accordance with the various statutes and Orders-in-Council in force.

Securities have been verified by actual inspection. Cash was verified by bank certificate. Accrued interest represents amount actually realizable if securities were sold. Book values of securities represent original cost with amortization of premium or discount calculated to March 31, 1933.

The above balance sheet represents cash and securities. The fund possesses an additional asset of \$483,549.75 representing statutory contributions accrued but not due at March 31, 1933. This amount was charged to and forms part of the expenditure of the Province for the year ended at that date.

I certify that, in my opinion, the above balance sheet is properly drawn up so as to show the sinking fund available and applicable to the redemption of the bonded debt of the Province at March 31, 1933.

(a) Authorized values of the Dominion of Canada, Department of Insurance, for use in Insurance, Loan and Trust Companies, as published by the Dominion Government on January 2, 1933.

Edmonton, May 15, 1933.

I have audited the books, vouchers and records relating to the Special Investment Fund established under the provisions of Section 29 of the Treasury Department Act, for the year ended March 31, 1933, and the above statement of investments and accruals is correctly prepared therefrom. During the period all securities purchased, sold, or retained were checked and examined. Premiums and discounts have been amortized to bring all securities to par value at date of maturity.

STATEMENT No. 17—Continued

Profit on operation of the Fund for the period is as follows:

Net revenue from interest received, less amortization of premium and discount	\$222,567.09
Add: Interest accrued March 31, 1933, less accrued amortizations.....	53,231.28
	<u>\$275,798.37</u>
Less: Interest accrued March 31, 1932, less accrued amortizations.....	69,238.85
	<u>\$206,559.52</u>
Net interest earnings	
Deduct:	
Net loss on sale of securities	12,378.40
Net revenue for the year	<u>\$194,181.12</u>
Deduct:	
Interest on invested capital at average rate paid on Savings Certificates (4.33624%)	189,814.86
Net profit for the year	<u>\$ 4,366.26</u>

Following the practice with respect to Provincial revenue, only earnings and profits actually received have been taken into general revenue account, but in order to prepare a correct statement of the earnings of the fund, interest earned but not received has been included in the above statement.

I certify that, in my opinion, the above statement correctly summarizes all transactions relating to the Special Investment Fund for the year ended March 31, 1933, and states the securities on hand at that date.

NOTE: In the preparation of the above statement purely financial transactions, in connection with the refunding of temporary loans, savings certificates, or debentures are excluded both from receipts and payments, otherwise both sides of the statement would be inflated by large figures of no practical value. For example, in instances where debentures were floated to refund maturing issues only the net increase in debt is shown under capital receipts.

Edmonton, February 11, 1933.

I have audited the books and records of the Workmen's Compensation Board, Alberta, for the year ended December 31, 1932, and the above Consolidated Balance Sheet is correctly prepared therefrom.

Cash in bank was confirmed by certificates from the Board's bankers.

Investments were verified by actual inspection. Securities on hand include School District Debentures to the amount of \$457,553.52, of which instalments of principal in arrears amount to \$13,270.42.

Accrued earnings on investments include past due interest on School District debentures amounting to \$11,702.42.

No provision has been made for uncollectable assessments estimated at \$12,000.00.

The adequacy of the reserve for claims pending is contingent upon settlement for an average amount per claim not greater than the average cost of past settlements.

Subject to the foregoing remarks, I certify that, in my opinion, the above Consolidated Balance Sheet is properly drawn up so as to show the financial position of the Board as at December 31, 1932, according to the information given to me and as shown by the books.

Provincial Auditor.

I have audited the books and records of the Wheat Board Monies Trust Account for the year ended March 31, 1933, and the above Balance Sheet and accompanying statement of Revenue and Expenditure are correctly prepared therefrom.

Investments of the Board consist of Lethbridge Northern Irrigation District 6% bonds due May 1, 1951, with a par value of \$29,000.00 and were verified by inspection during the year. The bonds are shown at a book value of \$33,948.08, being original cost less premium amortized to March 31, 1933. Market value of these bonds at March 31, 1933, was approximately \$27,645.00.

Repayment of the advances of \$9,000.00 to the Alberta Oil Consumers Co-operative Association, Limited, and \$14,228.00 to the Alberta Co-operative Wholesale Association, Limited, is doubtful.

Subject to the foregoing remarks, I certify that, in my opinion, the above Balance Sheet is drawn up so as to show the financial position of the Wheat Board Monies Trust Account as at March 31, 1933, and the accompanying statement of Revenue and Expenditure fairly states the result of operations for the year ended at that date.

Edmonton, Alberta, July 5, 1933.

I have audited the books and records of the Alberta Liquor Control Board for the year ended March 31, 1933, and the above balance sheet and accompanying profit and loss account are in accordance therewith.

Stocks of liquor and beer in warehouses and stores at March 31, 1933, were valued at cost price subject to a fixed rate of foreign exchange. Inventory reserve was reduced during the year by \$20,000.00, leaving an amount of \$6,678.43 to provide for the difference between actual cost of stocks on hand and valuation at the fixed rate. Inventories included goods on consignment amounting to \$42,570.92, the corresponding liability being included with accounts payable on the balance sheet.

I have received all the information and explanations which I require and certify that, in my opinion, the above balance sheet is properly drawn up so as to show the true financial position of the Alberta Liquor Control Board as at March 31, 1933, and the accompanying profit and loss account correctly sets forth the result of operations for the year ended at that date.

JAMES C. THOMPSON, C.A.,
Provincial Auditor.

STATEMENT No. 106—*Continued*

Edmonton, September 26, 1933.

I have audited the books and records of the Alberta Government Telephones for the year ended March 31, 1933, and the above balance sheet and accompanying statement of earnings are correctly prepared therefrom.

Operations for the year, without provision for depreciation, resulted in a loss of \$277,006.98. If depreciation had been provided on the former basis, 3½% of plant in service, the loss would have been increased by a further sum of \$831,361.90.

Due to the insufficiency of the existing depreciation reserve, loss arising from the removal of dead lines aggregating \$517,790.34 was capitalized, as distinct from the practice in previous years of writing off all capital losses in connection with plant replacements or removals to depreciation and renewal reserve.

Through failure to earn sufficient sums for depreciation over a period of years, the utility faces a heavy capital loss on its investment in plant and equipment. The balance sheet shows these items at cost, as no complete inventory of plant in service has been taken since the Wray appraisal in 1918. In my opinion, an engineering inventory could be made, by telephone officials, from construction plans available in the plant department, without undue expense or delay. The results obtained in this manner, subjected to a limited physical inspection, would provide a satisfactory basis of valuation of plant in service. The existing situation is unsatisfactory.

While the total sinking fund at March 31, 1933, amounted to \$1,699,462.89, it is not available for depreciation purposes, as deferred charges and capital losses, for which provision must ultimately be made, amounted to a larger sum.

The inventory of supplies includes equipment taken out of service and returned to stores at average cost without allowance for depreciation or obsolescence.

The reserve for bad debts was increased during the year by a provision of \$100,000.00, and amounted to \$114,546.53 at March 31, 1933. Having regard to the fact that former subscribers and closing accounts amounted to \$284,752.18, representing 50% of accounts receivable at the end of the fiscal year, the existing reserve will probably fall short of requirements.

The pension fund is not arranged on an actuarial basis, and the contributions which have been made to date will probably prove insufficient for future requirements.

No provision was made in respect of premium on debenture interest payable in New York and maturing on April 1, 1933.

Subject to the foregoing remarks, I certify that, in my opinion, the above balance sheet is properly drawn up so as to show the financial position of the Alberta Government Telephones as at March 31, 1933, and the accompanying relative statement of earnings fairly states the result of operations for the fiscal year ended at that date.
